The Logistics and Transportation Review

Volume 16 — 1980

Ballou, Ronald H.
MSVS — An Extended Computer Model for Transport Mode Selection and Vehicle Scheduling 325

Belohlar, James A. and Richard L. Shell
Factors Influencing the Usage of Urban Mass Transit 99

Chow, Garland
The Impact of State Regulation on Motor Carrier Performance 209

Cook, Wade D. and Gordon C. Shaw
A Study of Schedule Quality: The Norontair System 167

Corsi, Thomas M. and Merrill J. Roberts
The Potential Fuel Efficiency Consequences of Motor Carrier Deregulation 265

Daley, James M.
The Apparent Impact of Diversification Upon the Performance of General Freight Motor Carriers 203

Devine, Grant D. and Surendra N. Kulshreshtha
Farmers' Perceptions: The Effect of Prairie Grain Elevator Configuration on Efficiency and Market Performance 151

Felton, John Richard
Seasonal Variations in Demand and the Economic Regulation fo Trucking 243

Fleming, M. S. and P. A. Yansouni
Economic Feasibility of Off-track Elevators in the Prairie Provinces 225

Gratwick, John
Transport Verities and Myths 307

Harris, Robert G.
Economic Analysis of Light Density Rail Lines 3

Koenigsberg, Ernest and David A. Meyers
An Interacting Cyclic Queue Model of Fleet Operations 59

Ledford, Manfred H. and Brian F. O'Neil
Financial Overview of the U.S. Trucking Industry 73

McCarthy, Patrick S.
The Differential Impact of Residential Location on Choice of Model in the San Francisco Bay Area 33

Olayemi, Olusegun Ade
A Comparative Analysis of Intra-City Travel Pattern and Planning Practice in Nigeria, Western Europe, and North America 85

Rayner, Nigel
Rural Roads and Economic Development in Ethiopia 313

Sagner, James S.
Benefit/Cost Analysis: Efficiency-Equity Issues in Transportation 339

Sargious, Michel A. and Christopher K. Bee
An Evaluation of Urban Transportation Systems Using Behavioural Modes and Consumer Surplus 129

Stern, Eliahu and Russel B. Adams
The Effect of an Intercity Public Transport Network on Bus Patronage 109
